

100W Power Delivery
Fully Charge MacBook Pro 15" within 1.5 Hours

100% ⚡

| 100W Power Delivery Charges Your 15" MacBook

SuperTank packs up to 100W of USB-C Power Delivery in a single port which can serve as both an input and an output. It can charge your 15" MacBook Pro 2018 at full speed, only taking 1.5 hours to charge from 0% to 100% (when not in use).

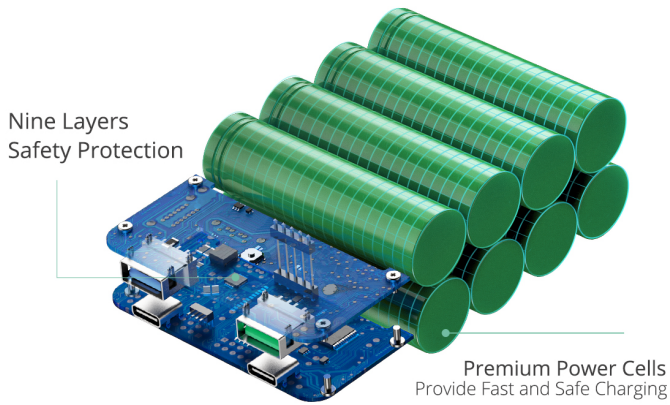

| Four USB Ports with 138W Total Output Charges Four Devices

Thanks to its two PD-enabled USB-C ports and two USB-A ports, SuperTank allows you to charge four devices at the same time, including laptops, tablets, cameras, cell phones, and other mobile devices, rapid charging for two laptops or tablets and two mobile devices all at once.

| X-Charge Low-Power Mode for Wearable Devices

X-Charge mode is designed to charge an almost unlimited range of low-power devices, including smart watches, Bluetooth earphones, fitness bands, and more. It's a great feature for people who enjoy exploring the outdoors or tracking their exercise. Double-press the power button to enter X-Charge mode and double-press again to turn off. With SuperTank, your wearable devices have never been treated better.

Premium Power Cells Provide Fast, Safe Charging

SuperTank is equipped with eight power cells. Compared with traditional lithium-ion batteries, it provide 5x faster charging speeds and generate much less heat, reducing the risk of decreased performance or damage.

Sky-High 27,000 mAh Capacity, One Week Usage

SuperTank's massive 27,000 mAh capacity keeps you power on the go. It can extend your 15" Macbook Pro battery life for 8 hours or charge your iPhone XS seven times, making it an excellent travel companion.
