

RF360 Europe GmbH

A Qualcomm – TDK Joint Venture

SAW Components

SAW Duplexer

LTE Band XXI

Series/type: B8582
Ordering code: B39152B8582P810

Date: August 16, 2012
Version: 1.0

RF360 products mentioned within this document are offered by RF360 Europe GmbH and other subsidiaries of RF360 Holdings Singapore Pte. Ltd. (collectively, the "RF360 Subsidiaries"). RF360 Holdings Singapore Pte. Ltd. is a joint venture of Qualcomm Global Trading Pte. Ltd. and EPCOS AG. References in this documentation to EPCOS AG should properly reference, and shall be read to reference, the RF360 Subsidiaries.

Data Sheet

**Revision History**

Changes compared to previously issued iteration

Issue	Originator	Detailed specification changes	Date
LK65B v1.0	N.Inose	Initial release	May 16, 2012
B8582 v2.0	N.Inose	Initial release from LK65B	August 16, 2012

Application

- Low-loss SAW duplexer for mobile telephone LTE Band XXI system
- Low insertion attenuation
- Low amplitude ripple
- Usable passband 15MHz
- Single ended to balanced transformation in Antenna - Rx path
- Impedance transformation 50ohm to 100ohm in Antenna - Rx path

Features

- Package size 2.0 * 1.6 mm²
- Max. height 0.47 mm
- RoHS compatible
- Approximate weight 0.006g
- Package for **Surface Mount Technology (SMT)**
- Ni terminals, Au-plated
- Balanced Rx port, unbalanced Tx port
- **Electrostatic Sensitive Device (ESD)**
- **Moisture Sensitive Level (MSL) 3**

Pin configuration

- 1, 8 RX Output (balanced)
- 3 TX Input
- 6 Antenna
- 2, 4, 5, 7, 9 To be grounded

Data Sheet

Characteristics

Temperature range for specification: $T = -20\text{ °C to }+85\text{ °C}$
 Antenna terminating impedance: $Z_{ANT} = 50\ \Omega \parallel 6.8\text{nH}$
 RX terminating impedance: $Z_{RX} = 100\ \Omega$ (Balanced)
 TX terminating impedance: $Z_{TX} = 50\ \Omega$

Characteristics TX - ANT	min.	typ. @ 25 °C	max.	
Center frequency f_c	—	1455.4	—	MHz
Maximum insertion attenuation 1447.9 ... 1462.9 MHz		1.2	2.0	dB
Amplitude ripple(p-p) 1447.9 ... 1462.9 MHz		0.3	1.0	dB
Input VSWR (TX port) 1447.9 ... 1462.9 MHz		1.3	2.0	dB
Output VSWR (ANT port) 1447.9 ... 1462.9 MHz		1.3	2.0	dB

Data Sheet

Characteristics

Temperature range for specification:

$$T = -20\text{ °C to }+85\text{ °C}$$

Antenna terminating impedance:

$$Z_{ANT} = 50\ \Omega \parallel 6.8\text{ nH}$$

RX terminating impedance:

$$Z_{RX} = 100\ \Omega \text{ (Balanced)}$$

TX terminating impedance:

$$Z_{TX} = 50\ \Omega$$

Characteristics TX - ANT				min.	typ. @ 25 °C	max.	
Attenuation			α				
10	...	1409	MHz	30	38		dB
1495.9	...	1510.9	MHz	45	62		dB
1565.42	...	1573.374	MHz	35	46		dB
1573.374	...	1577.466	MHz	40	45		dB

Data Sheet

References

Type	B8582
Ordering code	B39152B8582P810
Marking and package	C61157-A8-A40
Packaging	F61074-V8247-Z000
Date codes	L_1126
S-parameters	B8582_NB.s4p, B8582_WB.s4p see file header for port/pin assignment table
Soldering profile	S_6001
RoHS compatible	defined as compatible with the following documents: "DIRECTIVE 2002/95/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment. 2005/618/EC from April 18th, 2005, amending Directive 2002/95/EC of the European Parliament and of the Council for the purposes of establishing the maximum concentration values for certain hazardous substances in electrical and electronic equipment."
Moldability	Before using in overmolding environment, please contact your EPCOS sales office.
Matching coils	See Inductor pdf-catalog http://www.tdk.co.jp/tefe02/coil.htm#aname1 and Data Library for circuit simulation http://www.tdk.co.jp/etvcl/index.htm

For further information please contact your local EPCOS sales office or visit our webpage at www.epcos.com.

For questions on technology, prices and delivery please contact the Sales Offices of EPCOS AG or the international Representatives.

Due to technical requirements components may contain dangerous substances. For information on the type in question please also contact one of our Sales Offices.

Important notes

The following applies to all products named in this publication:

1. Some parts of this publication contain **statements about the suitability of our products for certain areas of application**. These statements are based on our knowledge of typical requirements that are often placed on our products in the areas of application concerned. We nevertheless expressly point out **that such statements cannot be regarded as binding statements about the suitability of our products for a particular customer application**. As a rule, EPCOS is either unfamiliar with individual customer applications or less familiar with them than the customers themselves. For these reasons, it is always ultimately incumbent on the customer to check and decide whether an EPCOS product with the properties described in the product specification is suitable for use in a particular customer application.
2. We also point out that **in individual cases, a malfunction of electronic components or failure before the end of their usual service life cannot be completely ruled out in the current state of the art, even if they are operated as specified**. In customer applications requiring a very high level of operational safety and especially in customer applications in which the malfunction or failure of an electronic component could endanger human life or health (e.g. in accident prevention or life-saving systems), it must therefore be ensured by means of suitable design of the customer application or other action taken by the customer (e.g. installation of protective circuitry or redundancy) that no injury or damage is sustained by third parties in the event of malfunction or failure of an electronic component.
3. **The warnings, cautions and product-specific notes must be observed.**
4. In order to satisfy certain technical requirements, **some of the products described in this publication may contain substances subject to restrictions in certain jurisdictions (e.g. because they are classed as hazardous)**. Useful information on this will be found in our Material Data Sheets on the Internet (www.epcos.com/material). Should you have any more detailed questions, please contact our sales offices.
5. We constantly strive to improve our products. Consequently, **the products described in this publication may change from time to time**. The same is true of the corresponding product specifications. Please check therefore to what extent product descriptions and specifications contained in this publication are still applicable before or when you place an order. We also **reserve the right to discontinue production and delivery of products**. Consequently, we cannot guarantee that all products named in this publication will always be available. The aforementioned does not apply in the case of individual agreements deviating from the foregoing for customer-specific products.
6. Unless otherwise agreed in individual contracts, **all orders are subject to the current version of the "General Terms of Delivery for Products and Services in the Electrical Industry" published by the German Electrical and Electronics Industry Association (ZVEI)**.
7. The trade names EPCOS, BAOKE, Alu-X, CeraDiode, CeraLink, CSMP, CSSP, CTVS, DeltaCap, DigiSiMic, DSSP, FilterCap, FormFit, MiniBlue, MiniCell, MKD, MKK, MLSC, MotorCap, PCC, PhaseCap, PhaseCube, PhaseMod, PhiCap, SIFERRIT, SIFI, SIKOREL, SilverCap, SIMDAD, SiMic, SIMID, SineFormer, SIOV, SIP5D, SIP5K, ThermoFuse, WindCap are **trademarks registered or pending** in Europe and in other countries. Further information will be found on the Internet at www.epcos.com/trademarks.
