

## 485 - Long Nose/Chain Nose Plier

---

### Product Description

A true "electronics production long nose plier" is what we had in mind when we designed the Model 485.

Engineers and production managers told us traditional drop-forged designs were too bulky and lacked the sensitive "feel" required for precision electronics assembly operations.

### Key Features

- Thin profile for access into high density areas
- Radiused outside edges that won't damage or scar wire.
- Rubber handle grips provide user comfort
- Made in the USA

### Additional Information

**Type of Tool:** Long Nose Plier / Chain Nose

**Project type:** Wire Weaving, Plastic Kit Modeling, Model Railroading, Jewelry Manufacturing, General Hobbies and Crafts, Electronics, Chainmaille, Bead Stringing
